School of Agricultural Economics and Business Studies (SAEBS) and
AB-CONSULT

Statistics for Beginners: A Practical Approach

Date: 05- 09 November 2018

VENUE: SAEBS Computer Room, SUA, Morogoro.

Background Information

Linking classroom instruction with real life situations is pivotal for learners understanding and developing interest in various subjects. Being laden with abstract concepts, numerical subjects, for instance statistics requires an element of practical, not only to enhance classroom understanding but also foster transfer of learning in real world situations. That being the case, the course is targeted towards undergraduate students, as well as other stakeholders who have interest in practical application of statistical knowledge, to help them build a strong foundation in research.

Mode of delivery: The course consists of a mix of theory and practice, the main focus being application of statistical software in data analysis based on various basic statistical techniques and interpretation of the results. The course consists of lectures, practical sessions and group exercises.

Suggested Fees: The participation fee for a training is Tshs 250,000/= . This fee includes participation to the seminar, the documents, morning tea, lunches and evening tea. It does not include, travel, accommodation and additional expenses.
